

# Yonatan Gat Rider

## Crew of 4:

Yonatan Gat - guitar

Sergio Sayeg - bass

Gal Shiloach - drums

Driver

## Important Conditions and Set Up Information:

- Yonatan Gat shows are set on the floor, with band's own guitar cabinets and drum set placed inside the audience. Playing on the floor is an important condition.
- In venues of small capacity - the band does not need to use the PA. No instruments are miked. And vocal microphones are not needed. The band's amps and drums are loud enough.
- The band brings its own lighting, therefore venue must be darkened pitch black for the band's lighting to be most effective. Low lights coming from the bar are expected - but please try to dim these as well. The show is at its most effective when the room is entirely darkened. The band's lighting is strong and will provide enough lighting for the crowd to move safely around the venue. Exit lights may be left on.
